StudioHub is built with the mission to offer online tools for owners and staff member to manage their every day studio affairs with greater ease than ever.

- ♦ Continuous research, implementation, and optimization of all technical and development aspects.
- ♦ Business planning and operations.

October 2013 - Present

 **Danik - Vancouver, Canada**
Software Engineer / Consultant

Since I began my development career I have worked on a number of freelance projects of different scale. In recent years I have shifted my focus to larger more complex projects, as well as development consultation, mentorship, and training.

- ♦ Developed and designed numerous websites and web application projects.
- ♦ Provided consultation on tech stacks, best optimization practices, and devised strategies for larger projects.
- ♦ Mentored and trained development teams and individuals.
